Subject: Approval of "Raw Water"

Dear Mr. Pullen:

I have reviewed the information you provided concerning your request to market a natural raw bottled water produced at the Summit Spring bottling facility in Harrison, Maine (ref: email dated 9/22/09). The source water would be gravity fed from the already approved spring water source, without any treatment or filtration, and bottled in clear 1 liter glass bottles with 28mm PET bottle cap enclosure, under the label: "Raw Water" Raw Living Spring Water. You also provided the following required information:

- Copies of the product label and paper bag container.
- Microbiological, chemical, physical and radiological water quality analysis.

After careful consideration of the information provided, **your request to sell "Raw Water" product in Maine is hereby approved.** Should you have any questions please call me at (number deleted for privacy)

Sincerely,

Scott A. Whitney  
Compliance Officer  
Drinking Water Program
