Hannaford Commits to Summit Spring Water in 120 Locations

Premium-Grade Maine Spring Water To Be Featured in Nature's Place

Harrison, Maine — October 24, 2007 — Summit Spring Water, Inc. announced today that Hannaford Supermarkets, headquartered in Scarborough, Maine, has committed to offering Summit Spring Water in all of its 120 Nature's Place locations throughout Maine, New Hampshire, Vermont, and Massachusetts. The water will arrive on store shelves beginning in February, 2008.

Summit President N. Bryan Pullen cites a recent successful test of Summit Spring Water in Hannaford's flagship store on Forest Avenue, Portland, Maine, as the catalyst for the expanded merchandising plan. Hannaford's commitment to adding Summit Spring Water to its Nature's Place locations demonstrates its commitment to Maine-owned businesses and sustainably collected spring water.

Summit Spring is one of the oldest and most revered natural spring sources in North America. The water's remarkable purity is documented in texts dating back to 1792. It has been carefully protected, and to this day, the water is still collected in the original stone springhouse without the use of pumps or other artificial means.

Summit Spring Water is certified Premium Grade by the state of Maine. Summit Spring is a member of MOFGA, the Maine organic farmers and gardeners association.
